

Nofar Baram | UX UI Design Student with AI Focus

Nofbar344@gmail.com • LinkedIn • +972-556640500

SUMMARY

Figma • Adobe Suite • Unity (C#) • GenAI Tools • Prototyping

Motivated Instructional Technologies student (3rd year) with a strong technical foundation in full-stack development and digital design. Experienced in designing and building end-to-end interactive products, from concept and UI creation to technical implementation. Bringing a unique blend of visual creativity, technical discipline, and a passion for AI-driven innovation.

SKILLS

UX UI Design: Figma, Adobe Illustrator, Photoshop, Wireframing, UI Design, UX Flows, Prototyping

AI Tools: Gen- AI Tools for ideation, visual exploration, workflow acceleration and content creation

Development: C#, Unity, HTML, CSS, JavaScript, Visual Studio, SQL, JetBrains Rider

Tools & Platforms: Postman, Valentina Studio, Articulate 360, Gen-AI Tools.

Languages: Hebrew (Native), English (Fluent), Spanish (Proficient)

PROJECTS

🔗 Interactive Game Platform & Editor (Unity & C#)

- **Full-Stack Development:** Built a complete ecosystem (Client, Server, Editor). Managed database structures via Valentina Studio and tested API connectivity using Postman.
- **Product Design:** Developed a custom Level Editor for content creation and designed all UI assets from scratch for an intuitive user experience.

AI-Based Instructional Development Agent (Capstone Project - In Progress)

- Defining the architecture and user flow for a "Super-Agent" designed to automate instructional design processes using LLMs.
- Conducting user research to optimize the interaction between instructional designers and AI tools.

🔗 MushBot - AI-Powered Identification Web App (Web & GenAI)

- **Hybrid AI Architecture:** Orchestrated a system combining Computer Vision (Kindwise API) for scientific identification with Gen-AI for complex asynchronous logic and error handling.
- **Privacy & Logic:** Implemented ml5.js for client-side image filtering to ensure user privacy and developed strict safety protocols for critical decision-making.
- **Immersive UX:** Designed a safety first user flow with immediate audiovisual feedback, utilizing Gen-AI tools to create a rich, responsive interface using HTML5, CSS3, and JS.

🔗 Reservists Support Platform (Web Development)

- Designed and developed a responsive platform to support businesses affected during wartime.
- Simplified onboarding process and improved information hierarchy for stressed users.
- Developed the frontend interface using HTML5, CSS3, and JavaScript.

🔗 E-Commerce Store Prototype

- Designed a high-fidelity e-commerce interface, simulating a complete shopping flow (browsing to checkout).
- Key Features: Created interactive product modals and a monochrome visual identity that matches the brand's artistic style.

EDUCATION

Holon Institute of Technology HIT

10/2023 – Present

B.A. in Instructional Technologies

WORK EXPERIENCE

Wolt Enterprises • Tel Aviv, Israel

10/2023 – Present

Senior Support Associate (Operations)

- Managed complex operations and escalations under high pressure, utilizing Monday.com and internal data systems to resolve real-time logistical issues.

Shugis • Tel Aviv, Israel

02/2021 – 09/2022

Graphic Designer & Manager

- Designed marketing materials, branded products and custom printed patterns
Worked directly with customers and adapted designs based on feedback
- Contributed to increased sales through refreshed visual concepts and creative product ideas

MILITARY SERVICE

Technical Operations Specialist, IDF Elite Unit

2019 – 2021

Worked in a classified technological role requiring precision, advanced systems handling and high security clearance.
